## EXPERIENCE

### Front end internship

#### Web Master

📅 July 2024 – August

📍 Online

- I have gained experience in various advanced aspects of web development by tackling front-end tasks and solutions.
- Create responsive projects

## CERTIFICATES

### Front-end Web Development Diploma

#### View Certificate

- I developed a deep understanding of HTML, CSS, and JavaScript, which are the core technologies for creating responsive and user-friendly websites.
- I learned how to build modern web interfaces, focusing on layout design, interactivity, and performance optimization.
- The diploma also covered advanced topics like responsive design, browser compatibility, and version control using Git, equipping me with the skills to create dynamic and accessible web applications.
- Additionally, I gained hands-on experience with popular front-end frameworks and libraries like React and Bootstrap.

## PROJECTS

### Portfolio

#### View My Portfolio

## ABOUT ME

- My name is Ahmed Mohamed Soliman , I'm a web developer currently in my second year at the Faculty of Computers and Artificial Intelligence at Helwan University. With a focus on front-end development, I have a strong foundation in creating intuitive and dynamic web interfaces. I'm excited to delve deeper into software development and artificial intelligence. I thrive on solving complex problems and am always eager to learn and adapt to new technologies
